Clinisept+ Skin

Clinisept+ Skin applies the latest proprietary hypochlorous technology to ensure high levels of cleansing. Its antimicrobial properties deliver optimal hygiene and protection without stinging or irritation. Due to its oxidising method of action, Clinisept+ Skin is not susceptible to antimicrobial resistance and is also an effective deodoriser.

Jalupro HMW

JALUPRO® HMW is an injectable solution which has been formulated using a clever combination of amino acids. Technically labelled as a 'dermal bio revitalizer', it eradicates skin depressions caused by ageing wrinkles and scars. It is a sterile resorbable injectable solution which can be used for the treatment of skin defects and depressions caused by wrinkles and scars.

Croma HA Face Mask

The Hyaluronic Acid Face Mask refreshes dehydrated skin, alleviates visible dryness and helps to improve the skin's elasticity. In addition to its pleasant cooling effect, it helps to smooth small wrinkles and ensures a radiant complexion. Regular use helps fight signs of skin aging and maintain a youthful appearance.
